PROFESSIONAL SUMMARY

Frontend Developer with 5 years of experience designing and building scalable, high-performance web applications using **React.js, Next.js**, and **TypeScript**. Specialized in **server-side rendering (SSR)**, **static site generation (SSG)**, Experienced in **AI-driven based coding** and **accessible, responsive UI development**. Adept at collaborating in Agile environments, contributing to code reviews.

PROFESSIONAL EXPERIENCE

Lead React Developer
Onrois, Surat [1/12/2024 – Present]

- Attended client meetings to gather requirements, prepared task breakdowns, and delegated work to junior developers. Independently and developed and delivered assigned tasks with a focus on quality and deadlines.
- Collaborated with the backend team to ensure smooth integration and seamless functionality
- Led frontend architecture for multiple Next.js projects, integrating SSR/SSG for SEO improvements and faster (reduced by 30%).
- Built and maintained reusable UI libraries with Storybook, improving development consistency across teams.
- Monitored and achieving a 25% performance gain through lazy loading and code splitting.

Senior Frontend Developer
WRT Infotech, Surat [01/11/2021 – 1/12/2024]

- Delivered over 10 key features using modern frameworks like React, Angular, and React Native within three months, ensuring high-quality code throughout.
- Enhanced system stability by identifying critical issues in legacy Angular projects through unit tests (Jasmine) and implementing solutions.
- Improved user experience with 30% faster load times by optimizing API integrations using React Query, axios, and RxJs.
- Boosted user decision-making by 25% with effective data visualization through interactive charts.
- Integrated real-time updates using tools like Socket.IO and Pusher, ensuring seamless live interactions.
- Built push notification systems for web and mobile apps, Increased user engagement 25% by developing web and mobile push notifications for 4,500+ users.
- Created a multichannel notification system with Suprsend, ensuring 98% message delivery for 5,000+ bi-weekly users.

Junior Software Developer
TechStaunch Software Solutions Pvt. Lt. [19/07/2021 – 30/10/2021]

- Developed modern responsive interfaces with React and Next.js, applying TypeScript for enhanced type safety; this approach resulted in a streamlined development process that improved project turnaround times by an average of 15%.

Intern

Gainserv Tech LLP. [16/03/2021 – 17/07/2021]

- Gained fundamental web development skills: Acquired proficiency in React.js, HTML, CSS,JavaScript and git .
- Participated in agile methodologies: Contributed to scrum calls and agile sprints, improving team collaboration by 20%.

Projects

- **GO-Manage saloon** (https://www.gomanage.ie/beautysalon/)
  - Attended client meetings to gather requirements, prepared task breakdowns, and delegated work to junior developers. Independently and developed and delivered assigned tasks with a focus on quality and deadlines. Collaborated with the backend team to ensure smooth integration and seamless functionalitytrack appointments, similar to Google Calendar.
  - Implemented drag-and-drop rescheduling for multiple appointments within the same day, delivering an interactive and intuitive UI.
  - Integrated real-time notifications and updates using Socket.io, enabling instant communication between staff and customers. Developed role-based authentication and authorization for secure and personalized access to product features.
  - Designed an Admin Panel with daily sales and visit analytics dashboards, using Chart.js for interactive data visualization. Delivered a scalable, modular frontend architecture with React.js and TypeScript, ensuring maintainability and performance.

- **SwiftResume** (https://www.swiftresume.com/)
  - Developed an AI-powered resume builder application using Next.js 15 and Payload CMS for dynamic content management.
  - Implemented an interactive workflow to collect user inputs, generate resume content using AI models (OpenAI), and produce ready-to-use professional resumes.
  - Integrated server-side rendering (SSR) and static regeneration (ISR) for better SEO and faster load performance.
  - Architected reusable components and responsive layouts in Tailwind CSS, ensuring accessibility and scalability`

- **LUBI-Portal** (https://www.lubipumps.com/)
  - Developed a high-performance heatmap visualization module using Google Maps JavaScript API to render millions of records with dynamic zoom-based data aggregation.
  - Implemented state → city → pincode-level transitions using GeoJSON polygons and markers.
  - Used reverse geocoding to group data by state, city, and district from lat/lng or pincode.
  - Enabled polygon-based filtering and viewport rendering to ensure smooth performance Integrated tooltips with aggregated stats and side panel for drill-down without affecting map UX.
  - Optimized for real-time rendering using clustering and lazy loading

- **Construction-OPS**
  - Integrated and implemented a dynamic PDF editing and modification feature using Fabric.js to enhance user interactivity and functionality.
  - Developed a robust solution for rendering PDFs onto a canvas, enabling seamless editing capabilities such as adding, modifying, and customizing text, shapes, and images directly on the PDF.
  - Leveraged Fabric.js's rich API to ensure precise manipulation of objects and incorporated intuitive user controls for an enhanced user experience.

SKILLS

- **Frontend Development:**
  - React.js | Next.js | TypeScript | JavaScript (ES6+) | Redux | Redux Toolkit | React Query | React Router | Context API | HTML5 | CSS3 | SCSS | Tailwind CSS | Bootstrap | Material UI | React Native | Angular | Browser Debugging | Console Debugging | Performance Testing
- **Data & State Management:**
  - Axios | Fetch API | Apollo Client | RxJs | REST APIs | GraphQL
- **Testing & Quality Assurance:**
  - Jest | React Testing Library | Jasmine | Karma | Unit Testing
- **Performance Optimization:**
  - Code Splitting | Lazy Loading | SSR/CSR | Lighthouse Audits | Image Optimization | Caching Strategies
- **UI/UX & Design:**
  - Responsive Design | Cross-Browser Compatibility | Accessibility (WCAG) | Modern UI Patterns | Storybook
- **Version Control & Workflow:**
  - Git | GitHub | GitLab | CI/CD (Basic) | Agile/Scrum

EDUCATION

Bachelor of Engineering (BE) – Information Technology
Government Engineering College (GEC) Bhavnagar [01/06/2018 – 01/06/2022] | (8.07 CGPA)

HSC
Bhulaka Sagar vidhyabhavan [01/06/2016 – 01/06/2018] – (76.76%)

SSC
Bhulaka Sagar vidhyabhavan [01/06/2015 – 01/06/2016] – (81.16%)
